Aisha Khan

aisha.khan@example.com | +1-555-0100 | New York, NY

Professional Summary

Senior Data Scientist with 6 years of experience building predictive models and turning experiments into product decisions.

Skills

Python, SQL, Machine Learning, TensorFlow, AWS, Spark, PyTorch

Experience

Senior Data Scientist | Copperleaf Labs | 2024 - Present

- Built demand forecasting models that improved inventory planning by 18%.
- Designed A/B test analyses for pricing changes and presented results to product leadership.
- Replaced spreadsheet forecasts with gradient-boosted models, reducing error by 12%.

Data Scientist | Tidewater Energy | 2020 - 2024

- Built a churn-prediction model that let retention teams target the top 5% of at-risk accounts.
- Created feature pipelines in SQL and Python that cut model refresh time from days to hours.

Education

MSc Data Science, Northern Coast University (2020)
