Professional Summary

Senior Backend Engineer with 8 years of experience designing reliable APIs and data models for SaaS products.

Skills

Python, Django, PostgreSQL, Redis, Docker, GraphQL, Kafka

Experience

Senior Backend Engineer | Pinecrest Software | 2024 - Present

- Designed payment APIs serving 2 million monthly transactions.
- Introduced Docker-based local environments and CI pipelines for six services.
- Designed REST APIs in Django serving 40 enterprise customers with 99.95% uptime.

Backend Engineer | Brightlane Systems | 2021 - 2024

- Wrote integration tests that reduced production regressions by a third.
- Built asynchronous job processing with Celery and Redis for report generation.

Associate Backend Engineer | Meadowlark Media | 2018 - 2021

- Led the migration of a monolith module into a separately deployed service.
- Tuned PostgreSQL queries and indexes, cutting p95 latency by 60%.

Education

BSc Computer Science, Cedar Valley University (2018)
