Professional Summary

Lead DevOps Engineer with 12 years of experience automating infrastructure and delivery pipelines.

Skills

AWS, Terraform, Kubernetes, CI/CD, Linux, Prometheus, GitHub Actions

Experience

Lead DevOps Engineer | Harborview Health | 2024 - Present
- Cut cloud spend by 25% with rightsizing and scheduled scaling.
- Codified AWS infrastructure in Terraform modules reused by 15 teams.
- Hardened Linux base images and automated patching.

DevOps Engineer | Cobalt Commerce | 2021 - 2024
- Wrote runbooks and on-call tooling that reduced mean time to recovery.
- Built CI/CD pipelines that took deployments from weekly to multiple times a day.

Associate DevOps Engineer | Meadowlark Media | 2014 - 2021
- Operated production Kubernetes clusters and Helm-based release workflows.

Education

BSc Computer Science, Northern Coast University (2014)
