Professional Summary

Lead Backend Engineer with 10 years of experience designing reliable APIs and data models for SaaS products.

Skills

Python, Django, PostgreSQL, Docker, REST APIs, Celery, GraphQL

Experience

Lead Backend Engineer | Silverline Bank | 2023 - Present

- Tuned PostgreSQL queries and indexes, cutting p95 latency by 60%.
- Designed REST APIs in Django serving 40 enterprise customers with 99.95% uptime.
- Wrote integration tests that reduced production regressions by a third.

Backend Engineer | Bluepeak Logistics | 2019 - 2023

- Led the migration of a monolith module into a separately deployed service.
- Introduced Docker-based local environments and CI pipelines for six services.

Associate Backend Engineer | Pinecrest Software | 2016 - 2019

- Built asynchronous job processing with Celery and Redis for report generation.

Education

BSc Software Engineering, Northern Coast University (2014)
